

RAMPMASTER

CHAMPION OF EXCELLENCE

Date: March 12, 2007

To Whom It May Concern:

Compliance Consultants, Inc. has worked with our organization now for nearly 20 years. Their professional personnel have assisted us with both safety and health issues as well as our environmental compliance needs.

We are fully aware that these Federal & State regulations , and the safety of our employees, are our responsibility and we take that responsibility very seriously.

Compliance Consultants, Inc. has taken these very complex issues and assisted us in implementing our safety / training programs in a prompt and timely manner.

In addition, they work with us to maintain our programs and keep us in compliance.

I would strongly recommend Compliance Consultants, Inc. to any organization who wants to stay in front of their safety / health and environmental responsibilities.
